Philosophy

Winthrop Capital Management (WCM) believes that a disciplined portfolio structuring process combined with strict relative value measurement results in superior performance and a controlled level of risk. Through our research process, we analyze each security and value every part of the organization's capital structure. As a result, we often will uncover investment opportunities overlooked by other investors. We consistently seek to build portfolios which are invested in securities that have been thoroughly researched, and to structure the portfolio in a manner to minimize risk and achieve the desired return objective.

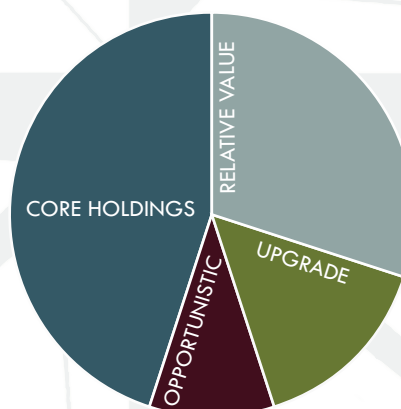

Strategy

The Intermediate Fixed Income strategy seeks to outperform the Barclays Capital U.S. Government/Credit 1-5 Yr Bond Index by focusing on investments in high quality securities, managing portfolio risk and maintaining a controlled duration discipline. In pursuing this strategy, WCM invests in all major investment grade sectors of the bond market including U.S. government securities, corporate bonds, municipal bonds, mortgage-backed securities and other structured securities. Individual security selection is based on our proprietary fundamental research.

Index Information

The Barclays Capital U.S. 1-5 Year Government/Credit Bond Index (BC Gov/Credit) returns are provided to represent the investment environment existing during the time periods shown. The BC Gov/Credit represents securities in the Government and Credit Indices. The Government Index includes treasuries and agencies. The Credit Index includes publicly issued U.S. corporate and foreign debentures and secured notes that meet specified maturity, liquidity, and quality requirements. For comparison purposes, each index is fully invested, which includes the reinvestment of income. The returns for the index do not include any transaction costs, management fees or other costs. An index should only be compared with a mandate that has a similar investment objective. An index is not available for direct investment.
