

Intermediate Fixed Income

Portfolio Benchmark:
Barclays Capital 1-5 Year U.S. Gov/Credit Index
September 30, 2010

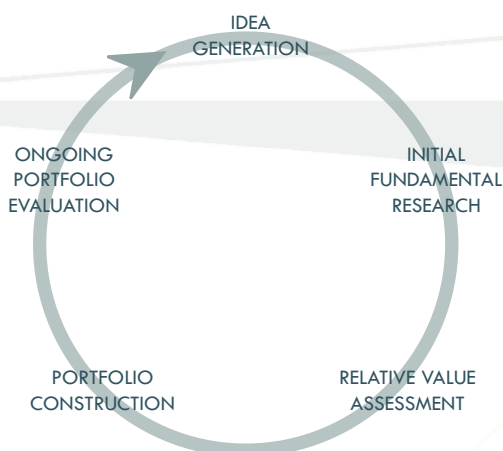

Philosophy

Winthrop Capital Management (WCM) believes that a disciplined portfolio structuring process combined with strict relative value measurement results in superior performance and a controlled level of risk. Through our research process, we analyze each security and value every part of the organization's capital structure. As a result, we often will uncover investment opportunities overlooked by other investors. We consistently seek to build portfolios which are invested in securities that have been thoroughly researched, and to structure the portfolio in a manner to minimize risk and achieve the desired return objective.

Strategy

The Intermediate Fixed Income strategy seeks to outperform the Barclay's Capital U.S. Government/Credit 1-5 Yr Bond Index by focusing on investments in high quality securities, managing portfolio risk and maintaining a controlled duration discipline. In pursuing this strategy, WCM invests in all major investment grade sectors of the bond market including U.S. government securities, corporate bonds, municipal bonds, mortgage-backed securities and other structured securities. Individual security selection is based on our proprietary fundamental research.

Intermediate Fixed Income Disclosure

Winthrop Capital Management, LLC (WCM) Intermediate Fixed Income Composite consists of fully discretionary fixed income portfolios seeking to achieve a high level of income and long-term capital appreciation relative to the Barclays Capital U.S. 1-5 Year Government/Credit Bond Index. The composite is measured against the Barclays Capital U.S. 1-5 Year Government/Credit Bond Index (BC Gov/Credit). The minimum account size for inclusion in the composite is currently \$250,000.

Winthrop Capital Management, LLC is a registered investment advisor. The firm maintains a complete list and description of composites, which is available upon request.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Past performance is not indicative of future results.

The US Dollar is the currency used to express performance. Returns are presented gross and net of management fees and include the reinvestment of all income. Additional information regarding the policies for calculating and reporting returns is available upon request.

The management fee schedule for the Intermediate Fixed Income portfolio is as follows: 0.50% on the first \$500,000; 0.45% on next \$2.0 million; 0.40% on next \$2.5 million; 0.35% on next \$5 million; negotiable over \$10 million. Each client's returns will be reduced by the advisory fee and any other expenses incurred in the management of the investment advisory account. Actual investment advisory fees incurred by clients may vary. The WCM Intermediate Fixed Income Composite was created on June 30, 2008.

This performance information gives some indication of the risks of an investment in the WCM Intermediate Fixed Income Composite. Performance calculations are time-weighted rates of return and are net of transaction costs and nonreclaimable withholding taxes, if any. The composite is size weighted and includes terminated accounts. The returns presented reflect the reinvestment of interest, dividends and other earnings. There is no guarantee that the portfolio manager will achieve similar results in the future. Please refer to the Winthrop Capital Management, LLC Form ADV Part II for a full disclosure of the fee schedule and other detailed information regarding the services offered. The returns presented have sustained significant gains and losses due to market volatility.

Index Information

The Barclays Capital U.S. 1-5 Year Government/Credit Bond Index (BC Gov/Credit) returns are provided to represent the investment environment existing during the time periods shown. The BC Gov/Credit represents securities in the Government and Credit Indices. The Government Index includes treasuries and agencies. The Credit Index includes publicly issued U.S. corporate and foreign debentures and secured notes that meet specified maturity, liquidity, and quality requirements. For comparison purposes, each index is fully invested, which includes the reinvestment of income. The returns for the index do not include any transaction costs, management fees or other costs. An index should only be compared with a mandate that has a similar investment objective. An index is not available for direct investment.
